## Insights

### The Supreme Court tightens the requirements and the obligations placed on the purchaser of land during the process of acquisition

18 October 2023

Barely five months since the landmark decision of the Supreme Court in *Dina Management Limited v County Government of Mombasa & 5 others* (Petition No. 8 (E010) of 2021), the apex Court on 22 September 2023 delivered another judgment which has the potential to further shake up the process of purchase of land by property investors in Kenya. In a judgment delivered in the case of *Petition No. 5 (E006) of 2022; Torino Enterprises Limited v Hon Attorney General* ("Torino Enterprise Limited's case"), the Supreme Court held among other things that a letter of allotment, even if perfected, cannot by and in itself confer transferable title to the Allottee, until the purchasers are registered as proprietors of the land upon perfecting the letter of allotment. The Supreme Court further placed a burden to land purchasers to do a physical site visit for verification of land which the purchasers intend to buy.

### How timelines hurt access to justice in public tender cases

5 April 2022

In any country's legal system, the ability to access justice is an important part of the social contract. Public procurement law, just like any other field of law, should promote socio-economic development through the fair allocation of resources (including government purchasing). In this article, we will be looking at some of the laws regulating public procurement disputes in Kenya and explaining how some of them might be impeding the goals mentioned above.
