Insights

Africa Energy Futures: Senegal

19 November 2021

Senegal is implementing a gas to power program in the energy sector. Its purpose is to convert existing thermal power plants to dual-fuel and to build future thermal power plants using natural gas as a primary energy source. The exploitation of the GTA field will play an important role in promoting consumption of clean energy and will support the implementation of the gas to power program.

New Public-Private Partnership Act in Senegal: Key provisions

9 March 2021

Senegal, like many African countries, recently adopted on February 22, 2021 a new Act on Public-Private Partnership contracts (the Act).

Benin's new Investment Code
