Protecting labour rights for gig workers

4 November 2024

The rise of the global gig economy where more people are working as freelancers and side-jobs, fuelled by increased access to smartphones and internet connectivity, has transformed Kenya's employment landscape. This has ushered a new era of flexibility, autonomy, and remote working. Platforms like Uber, Bolt, Jumia, and Glovo have empowered Kenyans to engage in freelance and short-term work, significantly contributing to this economic shift.

The Supreme Court tightens the requirements and the obligations placed on the purchaser of land during the process of acquisition

18 October 2023

Barely five months since the landmark decision of the Supreme Court in *Dina Management Limited v County Government of Mombasa & 5 others* (Petition No. 8 (E010) of 2021), the apex Court on 22 September 2023 delivered another judgment which has the potential to further shake up the process of purchase of land by property investors in Kenya. In a judgment delivered in the case of *Petition No. 5 (E006) of 2022; Torino Enterprises Limited v Hon Attorney General* ("Torino Enterprise Limited's case"), the Supreme Court held among other things that a letter of allotment, even if perfected, cannot by and in itself confer transferable title to the Allottee, until the purchasers are registered as proprietors of the land upon perfecting the letter of allotment. The Supreme Court further placed a burden to land purchasers to do a physical site visit for verification of land which the purchasers intend to buy.
