Kaina Mussagy advises on the full spectrum of mining, energy and infrastructure matters including, structuring and establishment of mining and energy projects in Mozambique. She advises potential investors in those sectors (on regulatory matters, trends and practices of the government and / or public entities) and negotiates concession contracts with the government, advises on structuring of farm-in and farm-out agreements in relation to petroleum assets, advises concerning project finance and ensuring compliance with the obligations of the investors under the legislation and the concession contracts.

Kaina's clients range from the leading producers of minerals in Mozambique, such as graphite and rubies, to coal mining companies. She also advises the largest producer of hydroelectricity in Mozambique.

Africa Energy Futures: Mozambique

19 November 2021

Mozambique has the goal of becoming an energy hub in southern Africa with the production of hydrogen. Cheap energy used to produce hydrogen would be a real motivator for the construction of the long-awaited Mphanda Nkuwa Dam on the Zambezi River, a project that exists since the colonial era.
