[Zimbabwe's Commodity Market: A Frontier for Regional Economic Growth and Development.](#)

30 August 2024

The recent introduction of the Securities and Exchange (Licensing of Minerals Commodities Trading Participants on the Victoria Falls Stock Exchange) Rules, 2024 and the Securities and Exchange (Victoria Falls Stock Exchange Mineral Commodities) Rules, 2024 marks a pivotal moment not only for Zimbabwe but for the entire Sub-Saharan African region. These regulations have laid the groundwork for the trading of minerals and commodities on the Victoria Falls Stock Exchange (VFX), which is traded in United States Dollars, opening up a new frontier for entrepreneurs, investors, and the broader economy.

[Value Addition in Africa: A Strategic Approach to Mineral Processing and Local Development.](#)

6 June 2024

Across the African continent, a transformative wave of policy changes is reshaping the mining sector. Nations such as Zimbabwe, the Democratic Republic of Congo (DRC), and Namibia are implementing bans on the export of unprocessed minerals, advocating for local processing prior to export. This strategic shift towards value addition, motivated by the aspiration to secure a larger portion of profits from their abundant resources, prompts an essential inquiry: Is Africa prepared for this transition?
